NOTE: GUM WILL GET HOT IN MICROWAVE OVEN. PARENTAL SUPERVISION REQUIRED.

1. Place contents of bubble gum packet into a microwave-safe container. DO NOT USE supplied plastic mixing cups.
2. Add 1/2 teaspoon of water and mix for 30 seconds. Please note: the mixture will not become fluid at this point.
3. Place into a microwave and cook for 12-15 second intervals, stirring each time until the product is liquefied, uniform in color and appears smooth (no lumps). You should need no more than 1 minute of cooking.
4. Stir vigorously (while warm) for 30 seconds every minute until product starts to cool. You will notice strands starting to form as it cools further, and the color will start to turn from dark red to pink.
5. Remove gum from container and place on wax paper dusted with some powdered sugar.
6. Flatten gum with rolling pin and slice into pieces.

You will also need:

- Measuring Spoons
- Microwave Safe Bowl
- Microwave Oven
- Cold Water
- Wax Paper
- Powdered Sugar
- Rolling Pin
- Knife

NOTE: IF GUM IS DIFFICULT TO REMOVE FROM MIXING BOWL, SOAK OVER NIGHT WITH WATER TO SOFTEN. GUM WILL THEN REMOVE EASILY WITH SOAP AND WATER.
