

Includes:
3 bone pieces
3 plant pieces
1 container of modeling clay

Is that Dino poop? It sure is! Have fun as you discover what the dinosaur had for lunch. Did he have fish or did he eat a plant? Once you find pieces of what he ate, put them together to figure it out!

Discover
what the
dinosaur ate!

It's not
real poop...
it's soft, pliable
dino dough!

Create your
own fossil imprint
with what you
find!

To keep material
soft, always put
back in container
after play. Store in
a cool place.

What's in the
poop? A fish, a leaf,
or both? What's
your hypothesis?

Not intended to be eaten.
