

T-Rex Dino Dig™

Complete Dinosaur Excavation Kit

6+
4111

T-Rex Excavation

As a paleontologist, you scan the terrain. A glint of white catches your eye. You bend down to see a piece of bone and tooth fragments. This looks like a good spot to excavate!

Included Items

- 11 Dinosaur bone pieces
- 1 Dinosaur Dig clay rock
- 1 Pair of excavation glasses
- 1 Mallet
- 1 Chisel
- 1 Brush
- 1 Dinosaur collector card

Safety

- Adult assistance and supervision recommended.
- Do not place dig material in mouth.
- Wear goggles for preventing dust entering eyes during digging.
- Do not inhale dust or powder.
- Do not pour excavation material down the sink, it will clog the drain.

Setup

1. Wear clothes than can get messy.
2. Cover work surface or excavate outside for easier clean up.
3. Work on a solid, level, working surface.
4. Carefully remove all protective wrapping.

Digging instructions

1. Chisel away at the dig material and dig with care when you locate a part of a dinosaur skeleton.
2. When you reveal a piece of bone, dig completely around it to avoid damage to the part. Use the excavation brush to dust off the loose material.
3. Clean off each dinosaur bone segment carefully with a damp cloth.
4. Refer to the diagram and use your skill to carefully assemble your bones and reconstruct an amazing dinosaur skeleton.
5. Congratulations on your achievement, young paleontologist!
